PREFACE.

THE Schools Inquiry Commissioners considered it desirable that, besides the full account of the Endowed Schools given in vols. x.–xx. of their Reports, the following concise account, in a tabular form, of the financial condition of each school, with other statistical facts, should be published in one volume.

To this has been added a full digest of the information supplied by the authorities of the several Colleges of Oxford and Cambridge, in reference to such exhibitions and scholarships tenable at, and under the control of, any College at Oxford or Cambridge as are restricted to candidates from particular schools or districts. (See Report, vol. i. p. 11.)

A short account has also been given of Hulme's and Betton's Charities, two important endowments more or less applicable to educational purposes.

The first set of tables (pp. 7–338) relates to schools which were either intended by the founder or are at the present time reputed to be Grammar Schools, and includes (*a*) Endowed schools, described as teaching grammar by the Commissioners for Inquiring into Charities (1818–1837); (*b*) Endowed schools originally intended for primary education, but which are now teaching grammar, e.g. Cannock, Staffordshire; Fowey and St. Stephen's by Launceston, Cornwall; Lymm, Cheshire, &c.; (*c*) Endowed schools recently founded, e.g. Framlingham College, Suffolk; Handsworth, Staffordshire; Surrey county school, Cranleigh, &c. The information has been derived entirely from the original answers sent to the questions of the Commissioners by the trustees and master of each school, from the Reports of the Assistant Commissioners, and from Accounts obtained from the office of the Charity Commission. Where the statements made in these tables differ from those found in the Digests given in vols. x.–xx., the discrepancy is usually due to the fact that the figures have been taken from the Accounts of a different and later year.

The second set of tables (pp. 339–346) relates to schools for the Secondary Education of Girls, which are very few in number, many of them being branches or departments of a grammar school foundation.

The third set of tables relating to Primary Schools (pp. 347–584) is abridged from the Tabular Digest of such schools, which has already appeared at the end of each county, in vols. x–xx. A few omissions have been supplied, and various corrections made, in the names of founders, dates, &c.

This volume has been compiled by Chas. Huxley Hall, Esq., to whom great credit is due for the laborious and careful analysis of complicated details which has been required to secure accuracy in the results.

H. J. Roby,
Late Secretary to the
Schools Inquiry Commission.

March 18, 1870.

INDEX TO PLACES, &c.

MENTIONED IN

The Tables and Tabular Digest of (I.) Endowed Grammar, &c. Schools for Boys. (II.) Endowed Superior, &c. Schools for Girls. (III.) Endowed Schools for Primary Instruction of Boys and Girls ("Non-classical").

N.B.—An asterisk against the name of a Town or Metropolitan District indicates that it has no Endowment for a Grammar (or Secondary) School.

When the names of two places are mentioned, as Adlingfleet, T. Fockerby, Aysgarth, T. Askrigg, &c., the first word (Adlingfleet) is the name of the original or mother parish, and is therefore the name under which the school has been arranged in the Reports, Digests, &c. of the Commissioners for Inquiring into Charities (1818–1837). Many of such parishes have, in modern times, been divided into two or more.

The letter T. stands for Township, Chapelry, Hamlet, &c., and the second word (Fockerby) is the name of the Township, Chapelry, &c. in which the school is actually situated, and by which it is now generally known. The school appears in the Index under both names. When, however, the place which gives its name to the school is so small and undefined as to have no separate population attached to it in the Census, it is inserted in brackets, as follows: Aikton (Wiggonby School).

TABLES

SHOWING THE

INCOME FROM ALL SOURCES, THE NUMBER OF PUPILS, FEES, NUMBER AND VALUE OF EXHIBITIONS, STATE OF BUILDINGS, &c.

OF THE

ENDOWED GRAMMAR AND OTHER SECONDARY SCHOOLS

IN

ENGLAND AND WALES,

WITH OTHER INFORMATION.

Explanation of the following Tables.

"*Name and Population*" (Col. 1.)

The words in thick-faced type in col. 1 represent:—

a. The names of all places in the London Division called *Metropolitan Districts*, and in the other Divisions called *Towns*, in the Census of 1861, in order of Population, whether having Endowments for Grammar (or other Secondary) Schools or not.

b. The names of all *other* places, *i.e.*, *Parishes*, *Chapelries*, *Townships*, *&c.*, having Endowments for Grammar (or other Secondary) Schools, also in order of Population.

When the place is part only of a larger parish, the name of the parish is subjoined in italics and brackets.

The special name of the School is also subjoined (if requisite) in small roman type, *e.g.*, "Tenison's School," "Clergy Orphan Corporation School," "Milton Abbas Grammar School," "Hele's School."

Mention is made in Col. 22 of any *additional* Endowed School *founded* for the Primary Instruction of Boys and Girls, and contained in the Reports of the Commissioners for Inquiring into Charities (1818–1837.)

N.B.—When the words "No Endowed Grammar School" appear against the name of a town, the term "Grammar School" is used as including all Schools giving Secondary Instruction.

The words "No Endowed School, either Grammar or Non-Classical," mean that *no* Educational Endowment was reported to exist by the Commissioners named above. But they have no reference to any *Primary* School that may have been *subsequently* endowed, *e.g.*, schools built by aid of a grant from the Privy Council or the National or British and Foreign School Societies.

"*Gross Income of whole Foundation*" (Col. 2.)

The figures in col. 2 represent in most cases the *Gross* Income of the Charitable Foundation, whether applicable to Educational purposes only, or, as in the case of Mixed Trusts, including also other Charitable objects, *e.g.*, Church purposes, Almshouses, Clothing for poor, &c.

But in the case of Schools belonging to Municipal Corporations, Cathedral Chapters, Colleges, City Companies, &c., the figures generally represent that portion of the Income of the Foundation *originally* applied to the *School* only. For the amount *now* applied to the School out of the general Revenues of those public bodies, see Cols. 4 and 22.

N.B. The Income given is for one of the years 1864–1868, according to the latest information received. When an average has been taken the fact is stated.

"*Net Annual value of School Endowment*" (Col. 3.)

The figures in Col. 3 represent the *Net* Income of the School or of the School portion of the Foundation.

In most cases this has been estimated by deducting from the figures in Col. 2, all necessary outgoings. But in the case of Schools belonging to the Public bodies named above, and other Schools whose Income consists *only* of a rentcharge, the figures in Cols. 2 and 3 correspond.

Col. 3, therefore, generally *includes*—

a. Amount expended on the School out of the Endowment, *i.e.*, Rent of School Buildings, Masters' Salaries and Pensions, Examiners, Prizes, Stationery, Coals, Gas, and Cleaning the School.

b. Exhibitions or Scholarships, either at School or the University, derived from property forming part of the School endowment.

c. Board and Clothing of Foundation Scholars, Apprentice Fees for Boys at the Grammar, &c. School.

d. Payments (if any) to *Branch* Schools ; or to *Separate* Schools when such payments are apparently at the entire discretion of the Trustees.

e. The disposable Balance of the year's Income, although the School may not have an *exclusive* right to such balance.

And it *excludes*—

a. Ground Rents, Repairs, Rates, Taxes, Insurance, and Expenses of Management (mentioned in Col. 22), whether relating to the property from which the Income is derived, or to the School premises, including the Master's House.

b. Instalments and interest of money borrowed, as well as any annual Investment on account of Sinking Fund.

c. Payments (if any) to other Charitable objects, *e.g.*, Church purposes, Clergy, &c. ; Hospitals for the Cure of Sick, Dispensaries, Infirmaries, &c. ; Loans; Almshouses, Doles, Clothing, Coals and Bread for Poor ; Public purposes, as Repair of Bridges and Highways, Draining, &c. ; Apprentice Fees to which Boys at the Grammar, &c. School have no exclusive claim ; Separate Schools, Hospitals for Children, &c. ; when such payments are apparently of a more or less permanent nature, and *not* at the entire discretion of the Trustees.

"*School Income not paid by Parents*" (Col. 4.)

The figures in col. 4 represent the *actual* Expenditure on the School, from other sources than the payments made by the parents, *i.e.* :

a. Amount paid out of Endowment for Rent of School Buildings, Masters' Salaries and Pensions, Examiners, Prizes, Stationery, Coals, Gas, and cleaning the School.

b. Amount (if any) added by Municipal Corporations, Cathedral Chapters, Colleges, City Companies, &c., or by private individuals, an explanation of which will be found in col. 22.

"*Estimated Contribution of Boarders*" (Col. 6.)

The figures in col. 6 represent the aggregate of the boarders' contribution to the support of the School, estimated as follows :—

The basis of the estimate is the amount charged to each boarder, for board, washing, and instruction. Extra charges for special subjects of instruction are not included. From this amount the cost of each boarder's maintenance has to be deducted.

This cost has been assumed to consist of two parts, viz., a fixed sum as the cost of necessaries, and in order to allow for difference in the cost due to a different scale of comforts, an additional sum, varying with the amount of the charge.

The fixed sum is taken at 16*l.* if the total charge be 25*l.* per annum or under; at 18*l.* if the total charge be above 25*l.*

The variable sum is one-third of the difference between the total charge and the above-named fixed sum.

The remainder, *i.e.* $\frac{2}{3}$ {total charge, less 18*l.* (or 16*l.*),} is the estimated contribution of the boarder to the remuneration of the masters generally and other school expenses.

It is presumed that the master receiving boarders has a house for boarders free of rent, rates, taxes, and repairs. Where this is known not to be the case, but the amount of these expenses is not known, a deduction of 10 per cent. has been made from the *charge;* where he has a house free of rent, but not of rates and taxes, &c., a deduction of 5 per cent. has been made. If rent, &c. is paid, and the amount known, the amount is deducted from the aggregate contribution.

If the master receiving boarders has a house free of rent, &c., which is sufficient for a portion only of his boarders, and he is obliged to take an additional house for the remainder, the deduction of 10 per cent. has been made in respect of the boarders occupying such additional house if the number be known, and if it be not known then in respect of half the whole number of boarders taken by such master.

When there are different fees for different classes of boarders, and the number of each class is not known, the mean of the extreme fees has been taken as the basis of calculation. When the number of each class of boarders is known, it is mentioned in col. 17 (see explanation of that col., p. 6).

Where the number of boarders is less than four no profit is reckoned, but the sum entered in col. 6 represents the charge for instruction alone at the same rate as a day scholar.

From a comparison of a large number of facts, it is believed that the estimate thus made is under rather than over the real amount, except, possibly, in very peculiar cases.

"*Educational Expenditure per Scholar*" (Col. 9).

The figures in Col. 9 represent the *average* expenditure per Scholar for Education only, not including, however, the Cost of Buildings or Expenditure for Exhibitions.

"*Occupation of Parents*" (Col 14).

In Col. 14 the letter C. has not been added where the proportion of Children of Artizans, Labourers, &c. is quite insignificant.

"*Character and Grade*" (Col. 15).

The "Character" of a School is determined by the subjects of instruction *actually* taught.

By *Classical* Schools are meant such as include Latin and Greek in their regular course of study.

By *Semi-classical* Schools are meant such as include Latin in their regular course, but exclude Greek, either altogether or in all but exceptional cases, or teach merely the rudiments of the language.

By *Non-classical* Schools are meant such as exclude Latin and Greek from their regular course, or teach merely the rudiments of Latin.

Schools which are now merely places for the primary instruction of the Labouring Classes, and of others on the same social level, are designated *Elementary*. The distinction between Non-classical and Elementary Schools is often very slight, especially in the North of England.

The distinction by "Grades" has reference to the ages only of the actual scholars.

The term *first grade* implies that the School has at least 10 per cent. of its whole number of scholars above the age of 16 years, the number given by that per-centage not being less than 4.

The term *second grade* implies that the School, not being qualified for the first grade, has at least ten per cent. of its whole number of scholars above the age of 14 years, the number given by that per-centage not being less than 4.

If not qualified for the First or Second Grade, a School is entered as of the *Third* Grade, unless it has fallen into the class designated Elementary. (Rep. App. V. p. (92).)

"*Fees for Day Scholars and Boarders*" (Cols. 16, 17).

The letters "F" "N" mean "Foundationers" and "Non-Foundationers."

When there are different fees for different classes of day scholars and boarders, the number of each class, if known, is indicated in brackets thus: (2) 20*l.*, (56) 25*l.*; or, if the difference turns upon age, thus: (4) under 12, (9) above 12.

"*Exhibitions*" (Col. 20).

The figures in the first half of Col. 20 represent the Exhibitions or Scholarships at the University derived from property forming part of the School Endowment.

Those in the second half of that column represent the Exhibitions, &c., derived from property held on separate Trusts by a separate body of Trustees, but for the benefit of the School, either exclusively, or in common with other Schools, *e.g.*, "The Warneford Exhibitions"; "The Careswell Exhibitions"; Exhibitions, &c. in the gift of the Society of a College at Oxford, Cambridge, &c.

"*Additional Particulars*" (Col. 22).

The term "Non-classical" used in reference to the additional Endowed Schools (see Report, pp. 108, 213) mentioned in this column denotes that the Schools were not intended by the founder to give instruction in grammar; it relates, therefore, to the *purpose* of the *foundation*, and not, as in Col. 15, to the *present state* of a *Grammar* School. The income given represents the Gross Income of the foundation, and in the case of mixed trusts the amount actually paid to the School is frequently mentioned also.

YORK DIVISION—*continued.*

Endowments for Exhibitions not attached to any particular School.

One Kay Exhibition (founded 1787) at Worcester College, Oxford, of the annual value of 30*l.*, tenable by persons born in the county of York.

One Exhibition (consolidation of two Exhibitions founded under the wills of Thomas Bury, 1627, and Thomas Ferrier, 1630,) of the annual value of 50*l.* (1868), tenable at Cambridge for three years by a poor scholar born in Kingston-upon-Hull, and producing testimonials of character satisfactory to the Charity Trustees of that Town.

Endowments for Exhibitions, &c. attached to several Schools (wholly or *principally* in this Division).

Three Freeston Exhibitions (founded 1595) at University College, Oxford, of the annual value of 50*l.* each, tenable for about four years and a half by persons educated for at least two years at Wakefield, Pontefract, Normanton, and Swillington Schools.

Fifteen Hastings Exhibitions (founded 1764) at Queen's College, Oxford, of the annual value of not less than 70*l.* nor more than 90*l.* each (according to the produce of the estate), tenable for five years by persons educated at the following Schools, *i.e.*, York, Leeds, Wakefield, Sedbergh, Pontefract, Hipperholme, Giggleswick, Bradford, Doncaster, and Richmond in Yorkshire ; St. Bees, Penrith, and Carlisle in Cumberland ; Appleby and Heversham in Westmorland.

(The number of Exhibitions was increased from 10 to 15, and the number of schools sending candidates from 12 to 18, by an ordinance approved by the Queen in Council, March 1869. This ordinance empowered the College to appoint six schools in addition to the 12 then entitled to send candidates. Of these six schools, four were to be in Yorkshire, one in Cumberland, and one in Westmorland. The College have appointed Doncaster and Richmond in Yorkshire, and Carlisle in Cumberland. The other vacancies are reserved for the present.) See also Vol. XVIII., p. 16.

Four Milner Scholarships at Magdalen College, Cambridge, of the annual value of 70*l.* each, tenable by persons who have been educated for at least two years at Leeds, Halifax, or Heversham Schools.

TABULAR DIGEST

OF

RETURNS FURNISHED BY THE TRUSTEES OR TEACHERS

OF THE

ENDOWED SCHOOLS FOR PRIMARY INSTRUCTION OF BOYS AND GIRLS ("NON-CLASSICAL")

IN

ENGLAND AND WALES.

N.B.—The term "Non-classical" as employed here relates to the *purpose* of the *foundation*, and is used to denote that the School was not intended by the Founder to give instruction in Grammar.

It is also employed in the same sense whenever the Endowed Schools for Primary Instruction are mentioned in the preceding Grammar School Tables.

A similar term, however, occurs in Col. 15 of those Tables, in reference to certain Grammar Schools, when it relates to *present practice* only, and is used to denote that the School, although founded as a Grammar School, has ceased to give instruction in Grammar.

Must become members of college under same regulations as to residence as other members.	The Master and Fellows of University College.	Wakefield, Pontefract, Normanton, and Swillington G.S. (none from last two schools for some years past).	Education at one of those schools for two years next preceding day of election.	Yes - -	The candidate who acquits himself best in examination.	Exhibition is thrown open to general competition on the next ensuing election to scholarships for that college, and filled for full time.	—
Usually required to reside within one year after election, under same regulations as to residence as other members.	Ditto -	Rochester and Maidstone Grammar Schools, two each.	Ditto -	Yes - -	Candidates admitted only from the particular school to which the exhibition is attached.	If no candidate of sufficient merit, election deferred to some future time.	—
Paid only during residence.	Governors of the Charterhouse.	Charterhouse only.	Nomination by the Governors.	Not known	- - -	The payment from the College is suspended when no exhibitioner is appointed by the Governors of Charterhouse.	These exhibitions are in augmentation of exhibitions attached to the Charterhouse. The College has nothing further to do than simply to receive and pay the allowances.
- - -	Feoffees of Blundell's School, Tiverton, after examination by three examiners appointed by them, by Balliol College, and by Sid. Sus. College, Cambridge, respectively.	Blundell's School, Tiverton, only.	Education at the school for three years immediately previous. Age to be under 19 years.	Yes - -	- - -	Thrown open at next election of scholars at Balliol College. For full length of tenure.	—
- - -	The Principal and Professors of Glasgow University nominate to the Master and Fellows of Balliol, who elect after a matriculation examination, if satisfied.	Candidates must have resided for two (academical) years at Glasgow Univ., or one there and two at some other Scotch University.	Natives, or whose fathers were natives, of Scotland.	Yes - -	- - -	The nominators send a candidate as soon as they find one that is fitting.*	If no one is nominated from Glasgow before Sept. 15, Balliol College may (after exam.) elect a candidate qualified as aforesaid before Oct. 20. No one can be a candidate who is a member of the Univ. of Oxford of more than two years' standing; nor can any one be more than once a candidate after the age of 21. Not tenable with the Warner exhibition.

* In the only case of this description which has occurred, when the nominee was rejected at Balliol College, another was sent to the College shortly afterwards, and his Exhibition was reckoned from the original vacancy.

HULME'S CHARITY.

Digest of Information.

(Ch. Com. Rep. xxi. 623.)

In 1691, William Hulme, of Kearsley, in the county of Lancaster, Esq., by his will, dated 24th October, devised various messuages, tenements, and lands in Heaton Norris, Denton, Ashton-under-Lyne, Reddish, Manchester, and Harwood, in the said county of Lancaster, to trustees, upon trust to pay the clear yearly rents and profits thereof to such four of the poorest sort of Bachelors of Arts at Brasenose College, Oxford, as should reside there for four years after taking such degree; such Bachelors to be nominated by the warden of the Collegiate Church of Manchester and the rectors of Prestwich and Bury in Lancashire.

In 1692 there were four exhibitions, of the annual value of 10*l.* each.

In 1769–70 the number of exhibitions was still only four, but the value of each exhibition was 60*l.* a year. At this time, however, the annual rental of the estates had increased to 360*l.*, besides which the trustees had saved a sum of 3,000*l.* An Act of Parliament* was therefore obtained, empowering them to grant building leases of the trust estates situate in the town of Manchester, for terms not exceeding 99 years or three lives in possession, and from time to time, as the income of the trust property improved, to increase the number of the exhibitions to ten, and their value to 80*l.* a year each.

In 1795 a second Act of Parliament† enabled the trustees to convey *any* of the trust estates in fee, or to grant leases for lives or for long terms of years, with or without covenants for renewal; and also to make a further addition to the exhibitions, the number of which they were empowered to increase to fifteen, of the annual value of 110*l.* each.

In 1814 an Act having been obtained‡ for amending the two Acts already mentioned, the *trustees* were authorized (1) to provide rooms and lodgings for the exhibitioners, and for that purpose to lay out not more than 5,000*l.* in purchasing, leasing, or building houses in Oxford; (2) to pay a yearly sum, not exceeding 150*l.*, to a lecturer in divinity, to be nominated annually by the principal of Brasenose College. And by sec. 5. they were incorporated by the name of "The Trustees of the estates devised by William Hulme, Esq.," with the usual powers to take land, use a common seal, &c.

The *nominators* also were empowered to appoint to vacant exhibitions *either* bachelors of arts at Brasenose College, *or* undergraduates who should have entered on the thirteenth term from their matriculation, and should resolve to reside in the said College for four years next after the commencement of such term, and to take their B.A. degree in the University of Oxford as soon as they should be of sufficient standing. An undergraduate's nomination to be void in the event of not taking his degree within eight months after attaining such standing.

In 1827 further powers§ were conferred on the trustees, who were authorised to spend such part of the savings and accumulations of the

surplus income as they should think necessary in purchasing the advowson of any ecclesiastical benefices, perpetual curacies, parochial chapelries, or donatives in England, provided that the purchase money of any one advowson should not exceed 7,000*l.*, and that there should always be left *surplus* accumulations amounting to 20,000*l.* at least. And whenever any such benefice became void the trustees, or in their default the Bishop of Chester, were authorised to appoint thereto such one of the then or late exhibitioners on Hulme's foundation, being a B.A. of Oxford and in Holy Orders, as they or he should think fit. The trustees were further authorised to spend part of the accumulations in building a parsonage or other residence for the incumbent of any such benefice, or in adding to any residence already existing, provided that the money so spent did not exceed 700*l.* in any one case.

In 1828 the number of exhibitioners was 15, each of whom was entitled to receive 120*l.* per annum, and books to the value of 35*l.* more. The total sum paid by the trustees on their account in that year was 2,305*l.* 3*s.*

Between 1827–8 and 1838 the trustees purchased several livings, taking care, however, not to reduce the *surplus* accumulations below the sum of 20,000*l.* But their efforts to procure, either by purchase, or otherwise, any houses in Oxford, for the residence of the exhibitioners, proved ineffectual.

In 1838 the trust property produced an income amounting to about 5,300*l.*, of which 922*l.* 17*s.* 4*d.* was the interest on the accumulations (28,005*l.* 17*s.* 4*d.*); and in 1839 the trustees obtained a fifth Act of Parliament,* which repealed so much of the Act of 1827 as required the *surplus* accumulations to be kept up to 20,000*l.*; directed that in future such surplus should not be less than 10,000*l.*, except with the consent in writing of three fourths of the trustees, when it might be reduced to 5,000*l.*; and enacted, *inter alia*,—

That the trustees should all be members of the Church of England.

That they might expend (subject to the restrictions above mentioned) such portions of the accumulations as they should think fit, (*a*) in endowing or augmenting the endowment of any ecclesiastical benefice, &c. purchased by them; such endowment or augmentation not to exceed 7,000*l.* in the whole in any one case. (*b*) In building or contributing to build additional churches or chapels in England and Wales (under the Church Building Acts), in endowing or augmenting the endowment of such churches, &c., and in providing a fund for their repair when built, and also for the repair, enlargement, or rebuilding of *other* churches, &c., the patronage of which might be in the hands of the trustees; such building or endowment, enlarging or rebuilding, not to exceed 7,000*l.*, and such repairs, &c., (exclusive of building, &c.) not to exceed 350*l.* in any one case. (*c*) In purchasing parsonage houses and glebe lands, or in building a parsonage on any glebe land so purchased. The purchase money of such land to be considered as part of the money appropriated for endowment, and the cost of purchasing or building a parsonage not to exceed 700*l.* in any one case.

That the patronage of such churches or chapels should be exercised by the trustees for the purposes of the trust (as in the Act of 1827).

Since 1839 the value of the trust estate has considerably increased. The present state of the property, the amount of income, and its application are explained in the accounts given below. There are now 17 exhibitions, each worth 120*l.* per annum, and books (as in 1828). The exhibitioners are appointed by the three nominators directed

by the will of the founder, from members of Brasenose College, either undergraduates who have entered their thirteenth term from matriculation, or bachelors of arts. They are taken from any county in England, and it is not requisite that they should be on the foundation of the College. The nominators in electing them are to have regard not only to the pecuniary circumstances of the candidates, but also to their moral and intellectual qualifications* ; the intellectual qualifications to be tested, as far as possible, by reference to the classes, prizes, and scholarships of the university.

BETTON'S CHARITY.

First Moiety.—For Charity Schools in England and Wales.
Second Moiety.—
First Fourth, for Charity Schools in City and Suburbs of London.
Second Fourth, for Chaplain and Decayed Freemen of Ironmonger's Company, &c.

Digest of Information.

(Ch. Com. Rep. ii. 49. and xxxii. pt. 2. 450.)

In 1723, Thomas Betton, by his will, dated 15th February, gave, devised, and bequeathed the residue of all his estate, whatsoever and wheresoever, to the Company of Ironmongers of the City of London, upon trust to invest it on good securities, and to apply the yearly revenue as follows: *i. e.*, one *moiety* for the redemption of British slaves in Turkey or Barbary; one *fourth* for the benefit of Charity schools in the city and suburbs of London, where the education is according to the Church of England, (the school in the parish of St. Leonard, Shoreditch, to be always included, and no schools to receive more than 20*l.* per annum); the remaining *fourth*, after paying 10*l.* per annum to a clergyman of the Church of England for performing divine service in the company's hospital, to the decayed Freemen of the Company, their widows and children, not exceeding 10*l.* per annum to any family, the last bequest being in consideration of the company's care and pains in the execution of the will.

As to the first *moiety* of the charity revenues:—

This *moiety* was applied as directed by the will for many years; but in consequence of there having ceased to be any British slaves in Turkey or Barbary, it was allowed to accumulate, and in November 1829 an information was filed in the Court of Chancery for the administration of the charity estate, including the accumulations of that *moiety*.

A protracted litigation having ensued, in 1841 a decree of the Lord Chancellor (confirmed on appeal by the House of Lords in 1844) directed that (after setting aside a certain sum to form a fund for the *future* redemption of British subjects, and to be called the "slave redemption account,") the revenues of such first-mentioned *moiety*, and of the accumulations thereof, called the "accumulated income account," should be applied in assisting Charity schools in England and Wales where the education is according to the Church of England. No school, however, to receive more than 20*l.* per annum.

In 1846* the Master of the Rolls confirmed a scheme settled by the master in December 1845 for the apportionment of these revenues amongst the different dioceses in England and Wales, and for distributing such apportionment among the several schools in each diocese most proper to be assisted, subject, however, to such alteration as future circumstances might require. (See copy scheme, p. 649.)

In 1858 the "slave redemption account" had reached the sum of 12,409*l.* 16*s.* 9*d.* three per cent. bank annuities, and the Court of Chancery ordered (29th November) that the interest thereon should be paid to the Ironmongers' Company, to be apportioned by them amongst the different dioceses according to the directions of the scheme with reference to the other revenues.

---

* The *aggregate* costs of the proceedings in Chancery between 1829 and 1846 amounted to not much less than 10,000*l.*, and were paid out of the first *moiety* of the Charity Estates; the costs of the appeal to the House of Lords were, however, ordered to be paid by the Ironmongers' Company.

The *whole* of the first *moiety* therefore, being now applicable to "Charity Schools in England and Wales," is distributed in accordance with the terms of the scheme; and a list has been prepared of the schools in each diocese receiving an annual grant. This list is revised by the Ironmongers' Company once in seven years; the last revision took place in 1868. (See pp. 651, 661.)

As to the second *moiety* of the charity revenues :—

The two *fourths* above mentioned, forming the second *moiety*, have been applied substantially in accordance with the directions of the will, and in the same manner as before the commencement of the suit, such application having been approved by the master in 1833, and the Court of Chancery having given no directions thereupon.

Of these two *fourths*, one for the benefit of "Charity schools in the City and suburbs of London," is distributed according to a list recently revised. (See p. 663.) The company have construed the term "suburbs" to include only those parishes actually abutting on parishes in the city of London; and the school mentioned in each parish, when not otherwise described, is the parochial or national school of the mother parish or church.

The remaining *fourth*, for the "Chaplain" and for the decayed "Freemen of the Ironmongers' Company, their widows and children," after providing for the repair of Mr. Betton's tomb, and paying 10*l.* to the chaplain, is distributed among the poor members of the company, divided into two classes, the outdoor receiving 10*l.* per annum each, and the indoor receiving 6*l.* each. The latter are in Sir Robert Geffery's Almshouses.

SCHEME, confirmed by Master of the Rolls, 29th July 1846.

(First *Moiety*: "Charity Schools in England and Wales.")

1st. That the annual sums *above mentioned and apportioned, and the sums to be apportioned as herein-after provided, shall be distributed and divided to and among the schools in each diocese that shall be

---

* In a list of the dioceses, with the amount apportioned to each, which precedes the scheme.

most proper to be supported and assisted, not giving to any one school more than 20*l.* a year and not less than 5*l.* a year, under and according to such rules and regulations as are herein-after mentioned and contained.

2nd. That the Ironmongers' Company shall receive the whole income of the charity funds and estates, and shall keep accounts of all monies received in respect thereof, and of their application of such monies, such accounts to be made up yearly, and shall also keep full minutes of all their proceedings in respect of the charity.

3rd. That the Ironmongers' Company shall, from time to time as circumstances may require, alter and vary the sums apportioned or to be apportioned to any diocese according to the population, the number of parishes or ecclesiastical districts, the number of schools proper to be supported and assisted therein, so far as they shall be able to ascertain the same, and shall within six weeks from the time of making the same report any such alteration or variation to the bishop of such diocese.

4th. That notice of all grants proposed to be made to schools shall be given to the bishops of the dioceses in which such schools shall be situate, one month before making the same; and in case any bishop shall within such month make any communication to the Ironmongers' Company on the subject of such proposed grant, or any of them, or otherwise relating to the charity, the Ironmongers' Company, in coming to a determination on the subject of such grants or other communications of the bishops relating to the charity, shall give due consideration to such communication, and inform the bishops of their determination thereon.

5th. That in selecting the most proper schools to be supported and assisted, a preference shall be given to the claims of schools that have been recently established, where the difficulties incident to a new undertaking are still to be overcome; and that among new schools those be preferred which are connected with new district churches, where the clergyman chiefly depends for his support upon the pew rents, and where the local resources are required for church buildings and other similar purposes.

6th. That the schools especially preferred shall be those in which instruction is given both on Sunday and on every day throughout the week; and that Sunday schools merely, and schools for infants under 7 years of age, shall be excluded from the benefit of the fund.

7th. That in cases where a boys' school and girls' school are under one and the same management, and are intended for the benefit of the same population, they shall be regarded as one establishment, and one grant only shall be deemed sufficient for both.

8th. That once in every year the Ironmongers' Company shall require a certificate from the managers or trustees of the schools to which grants shall be made, or if there shall not be any managers or trustees thereof, then from the ministers of the parishes in which such schools shall be situate a certificate as to the state of the school buildings, the manner in which the schools are conducted, the amount as well of the yearly income, whether derived from subscriptions or otherwise, as also of the yearly expenditure for the preceding year, and the debts or incumbrances (if any) affecting the schools; and the Ironmongers' Company shall give due consideration to such certificate in determining on the propriety of continuing such grants.
